

Claim 1. A novelty item adapted to be attached to a vehicle comprising:

platform means for supporting said novelty item,
means for attaching said platform means to a vehicle,
said novelty item comprising at least one movable part,
means attached to said at least one movable part for imparting motion to said at least one movable part, and
means for controlling the speed of said at least one movable part.

Claim 2. The novelty item as claimed in claim 1, wherein said means attached to said at least one movable part for imparting motion to said at least one movable part comprises:

a propeller,
a shaft connected to said propeller,
a crank connected to said shaft, and
means connecting said shaft to said at least one movable part.

Claim ~~3~~². The novelty item as claimed in claim ~~2~~¹, wherein said

means connecting said shaft to said at least one movable part is a piece of stiff wire.

³
Claim ~~4~~. The novelty item as claimed in claim ~~2~~, wherein said crank has a first portion which is disposed perpendicular to said shaft, and a second portion which is parallel to said shaft.

⁴
Claim ~~5~~. The novelty item as claimed in claim ~~4~~, wherein said means connecting said shaft to said at least one movable part is connected to said second portion of said crank.

³
Claim 6. The novelty item as claimed in claim 2, wherein said means for controlling the speed of said at least one movable part comprises:

a first element mounted behind said propeller,
a lever connecting said first element to a brake element,
said brake element being in contact with said shaft.

⁵
Claim ~~7~~. The novelty item as claimed in claim ~~6~~, wherein a spring means is mounted between said lever and said platform means for holding

said brake element in contact with said shaft.

A Claim ~~8~~⁶. The novelty item as claimed in claim ~~1~~¹, wherein said at least one movable part moves in an up and down motion.

A Claim ~~9~~⁷. The novelty item as claimed in claim ~~1~~¹, wherein said at least one movable part moves in a circular motion.

CONFIDENTIAL
Claim ~~10~~⁸. The novelty item as claimed in claim ~~9~~⁷, wherein said means attached to said at least one movable part for imparting motion to said at least one movable part comprises:

a propeller,

a shaft connected to said propeller,

a roller connected to said shaft, and

said roller engaging and rotating said platform means.
